Albany, NY
Permit No. 75

Keeping our
water clean
and safe

Assemblymember Simon is leading the way on water safety

The 2017-18 state budget provides \$2.5 billion to:

- ▶ **Replace** aging water mains and sewer lines across the state
- ▶ **Clean** contaminated drinking water
- ▶ **Continue** efforts to replace lead drinking water service lines
- ▶ **Improve** water testing standards

“The water our families drink, bathe in and cook with absolutely must be safe. We’re taking critical steps to fix our crumbling water mains and pipes before it’s too late.” – **Assemblymember Simon**
