# CHRIS KNOWS THE SACRIFICES FIRST RESPONDERS MAKE FOR OUR COMMUNITIES

From growing up in a family of first responders and also serving as a volunteer firefighter for 15 years, Chris knows personally just how hard these folks work and how much they sacrifice. They give up so much for their friends and neighbors and we owe them so much.

**Chris is resolved to repay that debt and he has sponsored legislation to do just that:**

- **Allows for caregivers to create collaborative programs to help at-risk patients (A.1208)**
- **Classifies emergency medical services as essential services for the purposes of state aid (A.1582)**
- **Allows free use of state parks for volunteer firefighters with at least 40 years of service (A.5082)**
  - ▼ Providing exemptions to volunteer ambulance services from vehicle registration fees (A.4239)
  - ▼ Protecting volunteers from losing their jobs if they respond to an emergency call (A.4239)
  - ▼ Giving a tax credit to all volunteer firefighters and ambulance workers because they bravely put their lives on the line each day (A.4239)
  - ▼ Providing more affordable health care options for first responder volunteers (A.4239)
