Since day one in Albany,
**I have fought for
our family farms.**

As a former dairy farmer, I know that the “Farm Laborers Fair Labor Practices Act” will harm farmers who are struggling to get by.

A Better Way:

- Expand agricultural property tax credits
- Protect farmland from overdevelopment
- Decrease regulations on small farms

After speaking to farmers and farm workers from across the state, I debated passionately on the Assembly floor against the bill and voted **NO** on the “Farmworkers Fair Labor Practices Act” (A.8419).
