SO WHY IS YOUR BILL STILL HIGH?

A special legislative
message from:

WHAT YOUR CURRENT UTILITY BILL LOOKS LIKE

HIGH DELIVERY FEES: Especially with providers like NYSEG and National Grid.¹

RISING ENERGY RATES: Increasing 4–5% annually.²

STACKED FEES: From storm surcharges to environmental taxes.

COMPLICATED BILLING: Hard to understand, harder to reduce.³

This is what Andrea thinks a good energy plan looks like:

- ✦ **ENERGY CHOICE:** Would let families decide what works for their home (A.6796)
- ✦ Would enact the **“RATEPAYER DISCLOSURE AND TRANSPARENCY ACT”** requiring monthly reports to state leaders on the costs and benefits of mandated energy programs (A.6152A)
- ✦ **AFFORDABILITY FIRST:** Would require customers to be notified about certain supply rate increases (A.1270)
- ✦ Would require public utility authorities to **OBTAIN LEGISLATIVE APPROVAL** before raising rates or fees, or imposing new rates and fees (A.2291)
