# On the State Level

## NYS Office of Parks, Recreation & Historic Preservation (OPRHP), Municipal Parks & Recreation (MPR) Grants

MPR grants are available for the construction of recreational facilities and other improvements to municipally owned recreational sites and parks. Examples include playgrounds, courts, playing fields and facilities for swimming, biking, boating, picnicking, hiking, fishing, camping, or other recreational activities. Grants will primarily fund construction costs. Preconstruction activities, such as developing plans and design specifications, may be included in the project budget, but MPR cannot fund projects that are solely for planning and design without a construction component. Only one location per application.

- **Deadline:** February 9, 2026, 4 PM
- **Eligible Applicants:** Counties, cities, towns and villages within the boundaries of New York State that own the property where the proposed project is sited are eligible to apply

## Office of Temporary & Disability Assistance (OTDA), Legal Services for Housing Stability Program (LSHSP)

This funding will help provide legal assistance to renter households in all areas of the state outside of New York City who need assistance to maintain housing stability. LSHSP contractors will be required to ensure that services are available throughout the region. If necessary to provide comprehensive services to residents, each provider will be required to engage partner agencies. Applicants should describe a comprehensive legal services program model that incorporates support services for individuals and families facing housing instability either on-site, via a subcontract or through a memorandum of understanding (MOU) with a community-based service provider. LSHSP contractors will be required to ensure that services are available to individuals regardless of immigration status.

- **Deadline:** March 5, 2026, 3 PM

## U.S. National Science Foundation (NSF), Professional Formation of Engineers: Revolutionizing Engineering Departments (RED)

Funding is available for projects as part of the RED program, in alignment with the Improving Undergraduate STEM Education (IUSE) framework and Professional Formation of Engineers (PFE) initiative. These projects are designing revolutionary new approaches to engineering education, ranging from changing the canon of engineering to fundamentally altering the way courses are structured to create new departmental structures and educational collaborations with industry. A common thread across these projects is a focus on organizational and cultural change within the departments, involving students, faculty, staff and industry in rethinking what it means to provide an engineering program.

- **Deadline:** April 14, 2026
- **Eligible Applicants:** Proposals may only be submitted by the following: institutions of higher education (IHEs): two- and four-year IHEs (including community colleges) accredited in, and having a campus located in the US, acting on behalf of their faculty members

## Foundation for Food & Agriculture Research (FFAR), Rapid Outcomes from Agricultural Research (ROAR) Program

This program deploys urgent funding to support research and outreach in response to emerging or unanticipated threats to the nation's food supply or agricultural systems. According to FFAR, plant and animal pests and pathogens can strike quickly, devastating crops, livestock and livelihoods. To address these outbreaks quickly, the ROAR program funds rapid research related to response, prevention, or mitigation of new pests and pathogens. ROAR's one-year funding fills urgent research gaps until traditional, longer-term funding can be secured.

- **Deadline:** Rolling
- **Eligible Applicants:** Public and private institutions of higher education, nonprofit organizations and for-profit organizations
